Taurus: You may lack precision in your thinking today

Thanks, Sandie. No, I hadn't heard back from you on that, but I made that assumption anyway!
We public noticed the draft for November, so probably will submit to EPA in December.

Hi Joni,

I can't recall if I wrote you back on this....anyway, your changes look good and it is ready for final submission.

Thanks very much!

Subject: Illinois Gulch TMDL draft

Sandie,
Please take a look at pages 17 and 18 to see if I've addressed your questions regarding the MOS and TMDL as well as the method for determining Load Allocation.

Thanks.
